- 57 GND

The diagram illustrates the wiring for the UART interface. It shows two horizontal rows of components. The top row consists of a green line labeled 'STM32_UART_RXD' on the left, a red component labeled 'R8' in the middle, and a green line labeled 'BM83_UART_TXD' on the right. The bottom row consists of a green line labeled 'STM32_UART_TXD' on the left, a red component labeled 'R9' in the middle, and a green line labeled 'BM83_UART_RXD' on the right. Vertical lines connect 'R8' to 'R9' and the two green lines to each other, forming a bridge between the two UART pairs.
